**SUDAN CIVIL AVIATION AUTHORITY**  
**(SCAA)**

**SUCAR PART 3**  
**METEOROLOGICAL SERVICES**  
**SCAA**

September 2011

---

**THE REPUBLIC OF SUDAN**  
**SUDAN CIVIL AVIATION AUTHORITY**  
**(SCAA)**

**Sudan Civil Aviation Regulation**  
**SUCAR PART 3**  
**Meteorological Services**

SUCAR Part 3 – *Meteorological Services* has been promulgated pursuant to Article 33 of the Civil Aviation Act, 2010 and issued under my consent as is required by the Act.

The SUCAR fully complies with the requirements of Annex 3 – *Meteorological Services* to the Convention on International Civil Aviation; and, supported by Directives, Orders and Procedures that may be published, from time-to-time, by the Board of Directors of Civil Aviation and/or the Director General of Civil Aviation, as required by law, constitute the Meteorological Service Standards of the Republic of Sudan.

Dr. Mohamed Elmuktar Hassan  
Minister of Cabinet Affairs  
Khartoum, 20 October 2011

*Sudan Civil Aviation Authority*

*Meteorological Services*

## TABLE OF CONTENTS

<b>TABLE OF AMENDMENTS.....</b>	<b>IV</b>
<b>TABLE OF CONTENTS.....</b>	<b>V</b>
<b>FOREWORD.....</b>	<b>1</b>
- Legal Backgroun	
- Layout of SUCAR Documents	
- Rules of Construction	
- Amendment of Procedures	
<b>PART I — CORE STANDARDS AND RECOMMENDED PRACTICES</b>	
<b>CHAPTER 1.....</b>	<b>5</b>
<b>DEFINITIONS</b>	
- Definitions.	
- Terms used with a limited meaning.	
<b>CHAPTER 2.....</b>	<b>10</b>
<b>GENERAL PROVISIONS.</b>	
1. Objective, determination and provision of meteorological service	
2. Supply, quality assurance and use of meteorological information.	
3. Notifications required from operators	
<b>CHAPTER 3.....</b>	<b>14</b>
<b>WORLD AREA FORECAST SYSTEM AND METEOROLOGICAL OFFICES</b>	
- Objective of the world area forecast system	
- World area forecast centres	
- Meteorological offices	
- Meteorological watch offices	
- Volcanic ash advisory centres	
- State volcano observatories	
- Tropical cyclone advisory centres	
<b>CHAPTER 4.....</b>	<b>18</b>
<b>METEOROLOGICAL OBSERVATIONS AND REPORTS</b>	
- Aeronautical meteorological stations and observations	
- Agreement between air traffic services authorities and meteorological authorities	
- Routine observations and reports	
- Special observations and reports	
- Contents of reports	
- Observing and reporting meteorological elements	
- Reporting of meteorological information from automatic observing systems	
- Observations and reports of volcanic activity.	

<b>CHAPTER 5.....</b>	<b>23</b>
<b>AIRCRAFT OBSERVATIONS AND REPORTS</b>	
- Obligations of States	
- Types of aircraft observations.	
- Routine aircraft observations — designation	
- Routine aircraft observations — exemptions.	
- Special aircraft observations	
- Other non-routine aircraft observations	
- Reporting of aircraft observations during flight.	
- Relay of air-reports by ATS units	
- Recording and post-flight reporting of aircraft observations of volcanic activity.	
<b>CHAPTER 6.....</b>	<b>25</b>
<b>FORECASTS</b>	
- interpretation and use of forecasts	
- Aerodrome forecasts	
- Landing forecasts	
- Forecasts for take-off	
- Area and route forecasts, other than forecasts issued within the framework of the world area forecast system	
- Area forecasts for low-level flights	
<b>CHAPTER 7.....</b>	<b>27</b>
<b>SIGMET AND AIRMET INFORMATION, AERODROME WARNINGS AND WINDS HEAR WARNINGS</b>	
- SIGMET information	
- AIRMET information.	
- Aerodrome warnings	
- Wind shear warnings	
<b>CHAPTER 8.....</b>	<b>29</b>
<b>AERONAUTICAL CLIMATOLOGICAL INFORMATION</b>	
- General provisions.	
- Aerodrome climatological tables	
- Aerodrome climatological summaries	
- Copies of meteorological observational data	
<b>CHAPTER 9.....</b>	<b>30</b>
<b>SERVICE FOR OPERATORS AND FLIGHT CREW MEMBERS</b>	
- General provisions.	
- Information for operators for pre-flight planning and for in-flight re-planning under centralized operational control	
- Briefing, consultation and display	
- Flight documentation	
- Automated pre-flight information systems for briefing, consultation, flight planning and flight documentation	
- Information for aircraft in flight	

**CHAPTER 10.....34**  
**INFORMATION FOR AIR TRAFFIC SERVICES, SEARCH AND RESCUE SERVICES AND AERONAUTICAL INFORMATION SERVICES**

- Information for air traffic services units
- Information for search and rescue services units.
- Information for aeronautical information services units.

**CHAPTER 11.....35**  
**REQUIREMENTS FOR AND USE OF COMMUNICATIONS**

- Requirements for communications.
- Use of aeronautical fixed service communications — meteorological bulletins in alphanumeric format
- Use of aeronautical fixed service communications — world area forecast system
- Use of aeronautical mobile service communications
- Use of aeronautical data link service — contents of D-VOLMET
- Use of aeronautical broadcasting service — contents of VOLMET broadcasts

**PART II.....37**  
**APPENDICES AND ATTACHMENTS**

**APPENDIX 1.....37**  
**Flight documentation — model charts and forms**

**APPENDIX 2 .....52**  
**Technical specifications related to world area forecast system and meteorological offices**

- World area forecast system
- Meteorological offices
- Meteorological watch offices
- Volcanic Ash Advisory Centres (VAAC)
- State volcano observatories
- Tropical Cyclone Advisory Centres (TCAC)

**APPENDIX 3.....65**  
**Technical specifications related to meteorological observation and reports**

- General provisions related to meteorological observations
- General criteria related to meteorological reports
- Dissemination of meteorological reports .
- Observing and reporting of meteorological elements

**APPENDIX 4.....99**  
**Technical specifications related to aircraft observations and reports**

- Contents of air-reports
- Criteria for reporting.
- Exchange of air-reports
- Specific provisions related to reporting wind shear and volcanic ash

**APPENDIX 5.....107**  
**Technical specifications related to forecasts**

- Criteria related to TAF
- Criteria related to trend forecasts
- Criteria related to forecasts for take-off .
- Criteria related to area and route forecasts, other than forecasts issued within the framework of the world area forecast system.
- Criteria related to area forecasts for low-level flights

**APPENDIX 6.....123**  
**Technical specifications related to SIGMET and AIRMET information, aerodrome warnings and wind shear warnings**

- Specifications related to SIGMET information
- Specifications related to AIRMET information
- Specifications related to special air-reports
- Detailed criteria related to SIGMET and AIRMET messages and special air-reports (uplink)
- Specifications related to aerodrome warnings
- Specifications related to wind shear warnings

**APPENDIX 7.....145**  
**Technical specifications related to aeronautical climatological information**

- Processing of aeronautical climatological information.
- Exchange of aeronautical climatological information.
- Content of aeronautical climatological information. .

**APPENDIX 8.....147**  
**Technical specifications related to service for operators and flight crew members**

- Means of supply and format of meteorological information .
- Specifications related to information for pre-flight planning and in-flight re-planning
- Specifications related to briefing and consultation
- Specifications related to flight documentation
- Specifications related to automated pre-flight information systems for briefing, consultation, flight planning and flight documentation.
- Specifications related to information for aircraft in flight

**APPENDIX 9.....157**  
**Technical specifications related to information for air traffic services, search and rescue services and aeronautical information services**

- Information to be provided for air traffic services units
- Information to be provided for search and rescue services units
- Information to be provided for aeronautical information services units

**APPENDIX 10.....161**  
**Technical specifications related to requirements for and use of communications**

- Specific requirements for communications

- Use of aeronautical fixed service communications 1
- Use of aeronautical mobile service communications
- Use of aeronautical data link service — D-VOLMET
- Use of aeronautical broadcasting service — VOLMET broadcasts

**ATTACHMENT A.....166**  
**Operationally desirable and currently attainable accuracy of measurement or observation.**

**ATTACHMENT B .....168**  
**Operationally desirable accuracy of forecasts**

**ATTACHMENT C.....171**  
**Selected criteria applicable to aerodrome reports**
